Message from the Vice-Chancellor

Welcome to the Delhi Skill and Entrepreneurship University

If you are looking for a place of higher education where you will be guided to study relevant courses; where you will be prepared for working from the day you step out of the college; where you will be pushed to explore your boundaries and reach your potential; where you and your future will matter; your search can end here. The Delhi Skill and Entrepreneurship University is the place where the courses are designed keeping in mind the requirements of the industry, where the curriculum is designed for holistic development of students, where attention is going to be paid to the development of the skill required to go out and do your best in the field you have chosen.

What you have to choose from is 15 Diploma courses in the creative economy and engineering fields; 12 degree courses in a variety of domains; 6 B.Tech. courses; and 2 Master Level courses.

The eligibility criteria, the process of admission is shared in this brochure to help you make choices and the best decisions for your career.

Wishing you all a productive time in taking the first step towards crafting your career.

— *Prof. (Dr.) Neharika Vohra*

Vice - Chancellor

1. About Delhi Skill and Entrepreneurship University

The Delhi Skill and Entrepreneurship University (DSEU) has been established through an act of the Legislative Assembly of the National Capital Territory of Delhi, namely the “Delhi Skill and Entrepreneurship University Act, 2019” (Delhi Act 04 of 2020) to provide quality education in applied sciences and skill education. The University aims to equip students with world-class skill education to enable access to aspirational jobs and inculcate entrepreneurial mindset and entrepreneurship. DSEU shall create a win-win for the youth and the industry by filling the existing gaps in skill training.

Building on the education philosophy of thinkers such as Mahatma Gandhi and Vinoba Bhave, DSEU aims to integrate the use of the hand, head, and heart for balanced living and engagement in lifelong learning. The focus will be on teaching both self-reliance for life-long independence and the wisdom towards nurturing and valuing interdependence.

The University wishes to change the existing paradigm of skilling, making skill acquisition aspirational and providing opportunities to all for skilling, up-skilling and reskilling. Besides, DSEU will support and nurture entrepreneurs and provide quality mentorship to steer the entrepreneurial journeys of those interested, by providing incubation, and handholding.

The University will offer courses to people from all walks of life and empower the marginalized and minority groups by providing them with an opportunity to attain world-class education. The University aims to develop aware and well-rounded citizens.

The course curriculum offered at DSEU will be inspired by industry requirements and will help graduates to be career-ready. Holistic development at affordable costs will be the aim of the University while also ensuring that no student is denied admission due to lack of their ability to pay. The University will provide opportunities of scholarships, freeships and financial assistance for getting loans and support from the Delhi government schemes for higher education.

2. Vision, Mission and Key Principles

2.1 Vision

- Set the standards for skill and entrepreneurship education
- Lead all students at DSEU to experience personal transformation, who in turn become agents of community transformation
- Become a leading partner in the sustainable growth of industry and the country

2.2 Mission

- To accord dignity to each and every skill by emphasizing its teaching and learning
- To inculcate an entrepreneurial mindset for the sustainable growth of the planet, the country, the society, the industry, and the individual
- To work in partnership with the industry to nurture talent which is work ready on the day they graduate

2.3 Key Principles

Delhi Skill and Entrepreneurship University has defined some key principles which are embedded in all its courses to help in the holistic development of all the students.

1. Develop market-linked courses by customizing courses to specific job roles
2. Multiple entry/ exit options and offer integrated career pathways
3. Inclusive by design
4. Ensure holistic development by deeply integrating employability/ life skills
5. Leverage technology
6. Equip students with an entrepreneurial mindset

Civil Engineering

We are all fascinated by various tall structures we see every day, the huge ship docks, tall buildings, and many more. While an architect may only create an aesthetical design of a building, it is the job of a

Civil Engineer and their team of assistants to bring that design to life. Being an assistant, you would be required to conceive the designs, undertake feasibility studies, examine the site and suggest changes in the design. The road to an idea transforming into reality will pass through you. Once the design is ready, you would also be required in managing the project, ensuring that it goes as planned. While it may seem that you are only required in the development phase of a project, it is not true. You would also be required to research extensively about new innovative ways and also be involved in the maintenance of projects, once completed. As India and the world look to boost infrastructure to provide the best possible lifestyle to everyone, jobs in this sector are ever rising and will remain in demand. The career options in this sector are endless.

Electronics Engineering

In today's digital world, electronic gadgets are all pervasive and impact nearly every aspect of human life. This has resulted in a sharp growth in this sector and rising demand of electronics professionals. The Diploma course in Electronics Engineering with specialization has been defined and designed to meet the challenges of continuous technological changes and sound knowledge of latest areas. This course capacitates students in designing, maintaining, testing and servicing of electronic devices. This course not only helps acquire in-depth knowledge in Electronics Engineering but also offers the opportunity to specialize in one of the four subfields viz., Communication Engineering, Medical Electronics, Digital Electronics and Instrumentation & Control Engineering. After successful completion of this course, the diploma graduates can expect to land an entry level job as a Technical Support Engineer, Service Engineer, Junior Engineer or even a successful entrepreneur. This program is a perfect entryway into the exciting world of electronics.

B.A. (Digital Media & Design)

Technology has created new employment opportunities in the age of the digital revolution. As digitization continues across industries, companies across the world from start-ups to established corporations, government departments, and not-for-profits are seeking digital professionals with relevant experience. DSEU understands that both theory and knowledge of relevant tools are necessary to excel in this competitive landscape. The Digital Media and Design course at DSEU is designed to provide sound conceptual knowledge and also the necessary technical skills and creative thinking ability required to be a professional designer.

The course prepares students for careers in graphics, illustration, typography, web design, image processing, motion graphics, animation, and digital marketing. The program emphasizes creativity and innovation. Students are given a strong conceptual base by training them to work with traditional print media tools. The application of software for raster and vector image processing, illustration, animation, video and audio production, animation, digital storytelling, web design, and UI/ UX design enables them to compete in a modern digital design workplace.

The course allows students to specialize in video production and animation, web & UI/UX design, and digital marketing, to find their own niches in this ever evolving industry. There is strong emphasis on hands-on experience with the latest digital tools and industry immersion through multiple projects and internships. Lastly, the course emphasizes students to work on industry-standard portfolios that will enable them to thrive and secure lucrative opportunities.

B.Tech. (Mechanical & Automation Engineering)

Machines and the mechanics behind them have always fascinated many of us. The major technological advancements have been driven by the fields of mechanics and automation, ensuring the problems we face in our day-to-day lives are tackled and solved through idea creation and their realisation. Pursuing their Bachelor of Technology in Mechanical and Automation, you will be brought up with an understanding of all aspects of machines, including the statics and dynamics of machines and structures. You will be best suited to prompt quality checks, designing of structures and machines, and seeing daily life obstacles with a different perspective to bring about creative solutions. As a mechanical and automation engineer, you will also have the option to pursue your career in the automation sector by learning about the dynamics of cars and other automated vehicles.

B.Tech. (Electronics & Communication Engineering)

In the last few years, the world has realised the prominence of online communication and as electronics becomes the backbone of this field, the importance of an Electronic and Communication Engineer is ever growing. Being an Electronics and Communication Engineer, you'll learn about the basics of electricals and electronics, and use that knowledge to drive innovations in the field of communication. The sector looks for minds who are always looking to troubleshoot problems with easier and more sustainable solutions. As a student, you'll also learn the designing of the related structures and lead projects assisted by assistant network planning engineers and assistant service engineers among others.

B.Tech. (Computer Science Engineering)

Being a Computer Science Engineer, you'll learn about all the aspects of the world of computers and have all the opportunities to work in its related fields. In addition to what a student pursuing their Diploma in Computer Sciences or Bachelor in Computer Applications may study, a Computer Science Engineer would also learn about the core functionalities and every niche area in detail. Besides core jobs in the IT sector, you'll also have opportunities to lead teams as a project head. As the world of computers is ever growing, students will have multiple spaces to show their talent and interest, and grow rapidly in the field.

B.Tech. (Mechanical Engineering)

A mechanical engineer is someone with the ability to bring an idea to life to make our lives easier. Pursuing your bachelors in Mechanical Engineering, you'll be made familiar with the basics of all engineering subjects, and will also be taught the niche areas involved in the statics and dynamics of machines and other equipment. Along with the core understanding of various subjects, you'll also work on designing equipment on various software and their synthesis through different methods. Upon graduation, you can apply to various sectors such as industries, logistics, planning, and many more.

B.Tech. (Tool Engineering)

Each industry utilizes heavy machinery and tools daily, and for every application, tools of different dimensions with different capabilities are required. For this purpose, the expertise of a tool engineer becomes extremely important. Pursuing your bachelor's in Tool Engineering will help you learn about the niche areas and their application in real life. You'll also study various materials, their composition, and under what circumstances may one be used. You'll also learn to create and analyze different designs and make a decision of whether they would suit the purpose, along with understanding aspects such as life, wear, and many more. The industry sector is ever-growing and requires experts in Tool Engineering very often. Hence, the availability of opportunities in the sector is plenty and of great quality for students to build a substantial future in and gain immense experience from.

B.Tech. (Mechatronics Engineering)

At some point during our childhood, we were all fascinated by robots. Robots were developed by engineers only to make the human life easier, and while pursuing your bachelors in Mechatronics Engineering, you'll be provided all the tools and skill-set to drive this field forward, research and develop new creative ways to make the use of robots more efficient and human friendly. Apart from the vast research required in the field, you'll also spend a lot of time in trial and error, designing and building robots with your hands. You'll also learn about different designing software's to ease the process, and will also learn the same static and dynamic knowledge of machines as a Mechanical Engineer would, with an emphasis to use that knowledge to build robots. Despite being a new field, prospects for students are high as the field is extremely important for the world in the coming days and hence, students have many spaces to opt from.

MCA (Masters in Computer Applications)

The curriculum of an MCA degree is prepared to provide you with the necessary tools to become effective software professionals. This course would place an emphasis on domain expertise in a variety of fields, which would aid students in developing software applications. Students will learn about system development in an information-processing context, with a focus on management information systems. The curriculum strives to provide a broad understanding of the subject, with equal focus on theory and application. Students after completing this degree will be able to work as system analysts, systems designers, programmers, and managers in any industry using Information Technology.

7. Courses at a glance

7.1. Diploma Courses

7.2. Undergraduate Courses

7.3. Multiple Entry and Exit

1. The University shall offer multiple entry and exit options as part of all the undergraduate degree (*except B.Tech.*) courses. This is in keeping with the new National Education Policy that allows students to accumulate credits and gives the flexibility to join a course or leave a course with a Diploma at the end of first year, with an Advance Diploma at the end of second year. The students can also enter the courses in the second and third year if they have completed the required credits from DSEU or other universities.
2. Please note that multiple entry and exit options are **NOT** available for diploma courses and B.tech courses.
3. The following option will be made available to the students joining undergraduate courses (*except B.Tech.*):
 - a. One year: Diploma
 - b. Two years: Advanced Diploma
 - c. Three years: Degree
4. The diploma received after exiting from the first year or second year of the above mentioned undergraduate degree programs is **NOT** equivalent to the Diploma received after undergoing regular diploma program.
5. In this academic session, the university will not take admission in the second and third year.

8. Minimum Eligibility Criteria for Courses

8.1. Diploma Courses (Full-time)

S. No.	Course	Minimum Eligibility
1.	Diploma in Applied Arts	Candidates must have passed class X or equivalent with mathematics as a subject. ** For Diploma in Pharmacy, candidates must have passed Class XII with Physics, Chemistry and Biology or Mathematics (PCB/ PCM) as subjects.
2.	Diploma in Architecture	
3.	Diploma in Automobile Engineering	
4.	Diploma in Chemical Engineering	
5.	Diploma in Civil Engineering	
6.	Diploma in Computer Engineering	
7.	Diploma in Cosmetology & Health	
8.	Diploma in Electrical Engineering

10. Fee Waiver Policy, Scholarships and Fees Consideration

10.1. Fee Waiver Policy

Eligibility criteria for applying under this scheme shall be as follows:

1. The student should have been enrolled for undergraduate programme in any of the Delhi State Public Universities or colleges/ institutes affiliated to Delhi State Public Universities.
2. The student should fulfill the income/ economic and academic performance criteria as specified for each category mentioned below:

Eligibility (Gross Annual Family Income of Student from all Sources)	Qualifying Aggregate Percentage (Marks in All Subjects)	Percentage of Financial Assistance
Category 1 - Beneficiary under National Food Security Scheme & possess the Card issued under the Scheme.	60%	100%
Category 2 - Not covered under category 1 but whose family income is upto Rs.2.50 Lakh p.a.	60%	50%
Category 3 - Family income above Rs.2.50 Lakh p.a. but not exceeding Rs.6 Lakh p.a.	60%	25%

Note

- A relaxation of 5% in qualifying aggregate percentage of marks will be allowed to SC/ST Category students.
- Fee Waiver Policy is applicable only for Undergraduate courses.

10.2. Scholarships & Fees Consideration

Slabs	Fees Consideration	Y1	Y2	Y3
Annual Family Income less than 1.5 lakhs	10%	Yes	Yes	Yes
Ward of Essential Service Personnel (Including Paramilitary and Police, Healthcare Professionals)	15%	Yes	Yes	Yes
12th Academic Score (75 -85%)	20%	Top 6-10%		
12th Academic Score (86% and above)	25%	Top 5% of class

Note:- DSEU has designed a proprietary Personality, Entrepreneurial Mindset and General Ability Test (PEG™) to help students choose the most suitable courses for themselves.

Candidates applying for Undergraduate courses (B.A./ B.Com./ B.Sc./ BBA/ BMS) have to take the mandatory non-proctored interest profiling test called PEG. The test is available online at the University website <https://dseu.ac.in/dseu-peg-test/> and is free of cost. The test does not require any preparation and takes approximately 40 minutes to complete.

A unique reference number and a PEG report in PDF form will be generated for each candidate. The candidate shall be asked to share their PEG report reference number and upload the test report before making course and campus preference.

Step 1- Go to the Admission section on the main menu at www.dseu.ac.in. Select “DSEU PEG Test”.

DSEU PEG TEST

DSEU has designed a proprietary Personality, Entrepreneurial Mindset and General Ability Test (PEG™) to help students choose the most suitable courses for themselves.

Candidates applying for Undergraduate courses (B.A./B.Com./ BSc/ BBA/ BMS) have to take the mandatory non-proctored interest profiling test called PEG. The test is available online at the University website and is free of cost. The test does not require any preparation and takes approximately 40 minutes to complete.

A unique reference number and a PEG™ report in PDF form will be generated for each candidate. The candidates are required to share their PEG report reference number and upload the test report before making course and campus preferences.

Step 3- Login to your online application student dashboard and select **PEG Test for UG**.

The screenshot shows the student dashboard for Delhi Skill and Entrepreneurship University (DSEU). The header includes the university logo, name, and contact information. The main content area is titled 'DASHBOARD' and features four circular icons: 'My Application' (person icon), 'Preview Form' (eye icon), 'Make Payment' (hand with coin icon), and 'PEG Test for UG' (document icon). To the right, there is an 'INSTRUCTION FOR USE OF DASHBOARD' section with three bullet points: 'My Application' (selecting new courses), 'Preview Form' (viewing completed forms), and 'Make Payment' (selecting forms and making payments via credit card, net banking, or ATM-cum-Debit Card). The footer contains browser recommendations, legal links, and a copyright notice for 2021.

Step 4- Fill in your **PEG test reference number** and upload your **test report**

The screenshot shows the 'PEG Test for UG' page. It begins with a heading 'PEG Test for UG' and a paragraph explaining that DSEU has designed a proprietary Personality, Entrepreneurial Mindset and General Ability Test (PEGTM) to help students choose suitable courses. A second paragraph states that candidates for undergraduate courses (B.A./B.Com./B.Sc./BBA/BMS) must take this mandatory, non-proctored, interest-profiling test, which is free of cost and takes about 40 minutes. A third paragraph notes that a unique reference number and PEGTM report in PDF form will be generated for each candidate, who is required to share the reference number and upload the report before making course and campus preferences. Below this, a link is provided: 'The link to the test is here: <https://dseu.ac.in/dseu-peg-test/>'. The form includes a text input field for the 'PEG test reference number', a 'Choose File' button (currently showing 'No file chosen'), and an 'Upload Test Report' button (labeled 'Upload File'). The footer is identical to the dashboard screenshot, including browser recommendations, legal links, and a copyright notice for 2021.
