About Delhi Skill and Entrepreneurship University

The Delhi Skill and Entrepreneurship University (DSEU) has been established through an act of the Legislative Assembly of the National Capital Territory of Delhi, namely the "Delhi Skill and Entrepreneurship University Act, 2019" (Delhi Act 04 of 2020) to provide quality education in applied sciences and skill education. The University aims to equip students with world-class skill education to enable access to aspirational jobs and inculcate an entrepreneurial mindset and entrepreneurship. DSEU creates a win-win for the youth and industry by filling the existing gaps in skill training.

Building on the education philosophy of thinkers, such as Mahatma Gandhi and Vinoba Bhave, DSEU aims to integrate the use of the hand, head and heart for balanced living and engagement in lifelong learning. The focus is on teaching both self-reliance for lifelong independence and the wisdom toward nurturing and valuing interdependence.

The University wishes to change the existing paradigm of skilling, making skill acquisition aspirational and providing opportunities to all for skilling, up-skilling and reskilling. Besides, DSEU will support and nurture entrepreneurs and provide quality mentorship to steer the entrepreneurial journeys of those interested, by providing incubation and hand-holding.

The University started with its inaugural Academic Year in 2021 and launched 15 Diploma programs, 18 Undergraduate programs (11 Flagship programs, BCA and 6 B.Tech. programs) and 2 Postgraduate programs across 13 campuses in Delhi. In the second academic cycle (2022-23), admissions for 15 Full-time Diploma programs, 2 Part-time Diploma programs, 15 UG programs, and 4 B.Tech. programs, 4 M.Tech. Programs, MCA and 4 Ph. D programs were conducted. In the third academic year i.e. 2023, the University is launching admission across 21 Campuses in Delhi in 17 Full-time Diploma programs, 12 Lateral Entry to Diploma Programs, Advanced Diploma in Automotive Mechatronics, 20 UG programs, 4 B.Tech. programs, 4 Lateral Entry to B. Tech programs, 4 M.Tech. programs, MCA, M.Sc. (Medical Laboratory Sciences), 4 Ph.D and various other Short Term Certificate programs.

The University's focus is on offering programs in close collaboration with industry partners, which gives our students an edge in a better understanding of the skills required by the industry. Students undertake live projects, regularly interact with domain-specific experts, and take up on-the-job training in organisations during their program work, simultaneously integrating the theory learned in the classroom with actual work experience. It is this model of "learning by doing" which becomes a win-win situation for all stakeholders involved. Further, we have a dedicated team for External Relations and Placements & Partnerships which have created a transparent and robust ecosystem helping recruiters and students make informed decisions.

3.2.   M.Sc. Program(s)

3.1.5.   Medical Laboratory Sciences

A significant skill gap has been observed in the professionals offering healthcare services. Effective delivery of healthcare services depends largely on the nature of education and training received by the graduates. To bridge the gap between science and medicine and considering the requirement of the National Education Policy (NEP 2020) to change the existing paradigm of skilling, making skill acquisition aspirational, we are offering the learner-centric MMLS programs with an option to pursue PhD (Medical Laboratory Science/Biomedical Sciences)

Medical Laboratory Science (MLS) deals with introduction to patient care with clinical laboratory investigations for laboratory diagnosis of various diseases. The information gathered through the analysis of blood, tissue and body fluids are used for identification of various types of foreign organisms and abnormalities that can further be utilized to make decisions regarding a patient's medical care. The quality of medical care has improved enormously due to the advances in technology. Medical Laboratory Professionals work in all areas of a clinical laboratory including blood banking, clinical biochemistry, haematology, immunology, histopathology, clinical genetics and medical microbiology. They perform a full range of laboratory tests- from simple prenatal blood tests, to more complex tests to uncover various human diseases. Medical Laboratory Scientist are also responsible for confirming the accuracy of test results, and reporting laboratory findings that further helps the physician to evaluate the effectiveness of treatment. The versatility of this course makes it an effective springboard for wide-ranging careers in the field of biomedical sciences.

*Two years for the students who have completed 3-year BSc MLT program and One year for the students who have completed four-year BMLS program.

One calendar year of Internship for the two-year MMLS programs. The curriculum pursued during the year of internship provides both theoretical and practical experience in the field.
